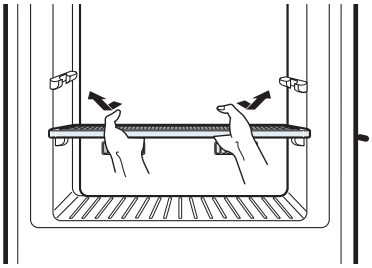
5. Identifying and dissembling the parts

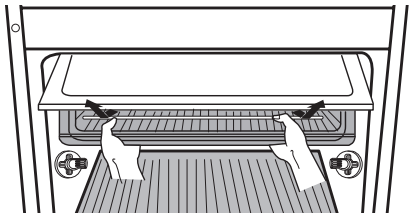
To remove shelves in the freezing compartment

- First, remove the icemaking molds. Tilt the shelf up at front, then lift it up, pull it out of the tracks.



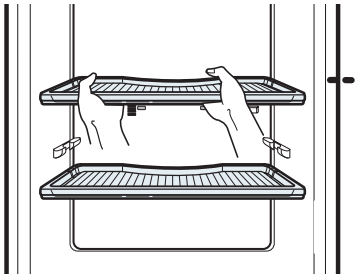
To remove shelves in the chilled compartment

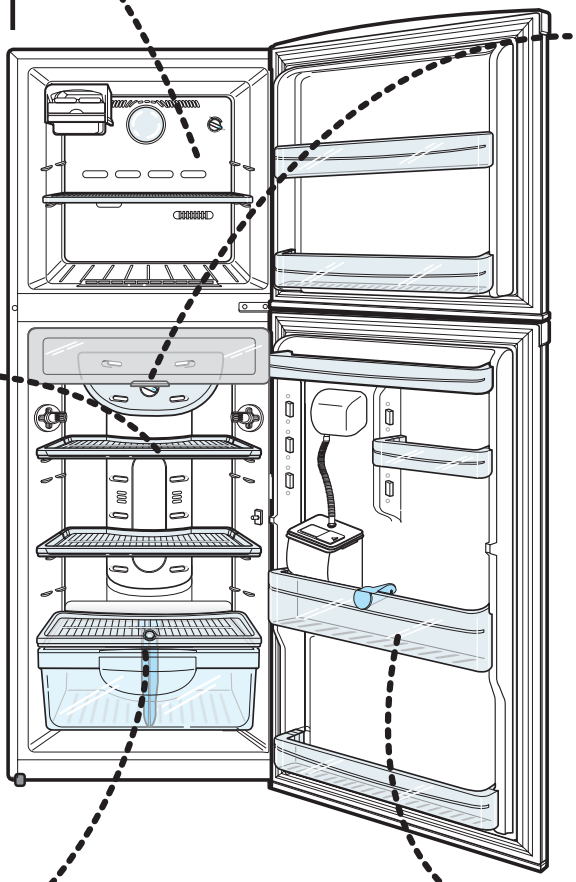
- Lift up the cover, push the cover to the right until the mounting hook disengaged, then disengage the other mounting hook and pull out the cover.
- Pull the shelf forward until it stops. Then lift it up and pull it out.



To remove shelves in the refrigerating compartment

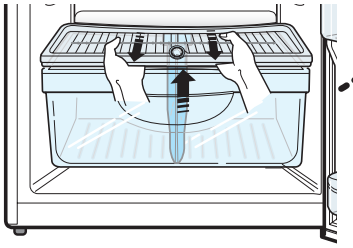
- Hold the shelf by the front and pull it forward from the rack.

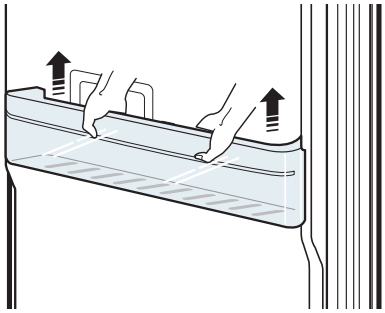




To remove storage drawers and covers

- Lift up to remove the cover. Pull the drawer out then lifting it up.



To remove door bins


- While pushing the bin to the left, lift it up to disengage.
